INTRODUCTION

This report is a companion to the Association of American Medical Colleges previous report "Participation of Women and Minorities on U.S. Medical School Faculties," published in 1976. This report provides the current status of U.S. medical school manpower resources by ethnic description and by sex.

Summary tables have been included in the report for selected variables to show number differences and percent changes which have occurred over the past three years.

An additional study in preparation at AAMC which provides further demographic data by sex and ethnic descriptors is entitled "A Ten Year Comparison of Characteristics of U.S. Medical School Salaried Faculty, 1967-1978." This study will be available in early summer, 1979.

METHOD

Data Source

Data for the report were extracted from the Faculty Roster System, a data base of U.S. medical school faculty maintained since 1967 to provide a basis for statistical studies of faculty manpower. The system has been supported by agencies of the United States Public Health Service since its inception.

There are currently 125 accredited and provisionally accredited medical schools in the United States, and all of these institutions either participate in the Roster or have indicated their intention to participate. The institutions not yet participating are newly established schools.

Maintenance of the Faculty Roster is an ongoing procedure with monthly updates of faculty records. In a typical month over 2,500 records are received from the schools and processed--to add new faculty, to update current records or to deactivate records.

For all new faculty receiving a first appointment at a medical school, the representative at the school is responsible for submitting a completed form to AAMC providing data on the individual's background, current employment status at the school, previous professional employment and education and training. This information is entered into the national data base. Data are also forwarded by the schools for faculty who have transferred or become inactive. Each time data for a faculty member are processed at AAMC, a display form for the faculty member is printed and returned to the schools for their records. Samples of both data collection and data reporting forms are contained in Appendix II.

This report contains data for all salaried full-time and part-time faculty who have been reported and entered into the Faculty Roster System as of September 1978. No volunteer faculty are included.

Major Study Variables

The system is designed to record data on each full-time or part-time salaried faculty member. The variables include background information (name, sex, ethnic/racial self-identification, date and country of birth, and citizenship status), current employment information (primary and joint appointment, department, rank and nature of employment), employment history, education and training. In total the Faculty Roster System has the ability to maintain 215 individual items of information for a faculty member.

For this report the key variables are sex and ethnic/racial self-identification. Because distributions by sex and minority group membership are significantly different for faculty with different degree types, in different departments, or who joined medical faculties in the more recent past, the study utilizes degree type, department and year of accession to faculty status as control variables.

By comparison with other U.S. medical schools, institutions in Puerto Rico are highly atypical in their employment of Puerto Ricans as faculty members, a minority group in the rest of the United States. Because of their special role and mission, Howard University School of Medicine and Meharry Medical College employ larger numbers of black faculty members than other U.S. schools. These special institutions are a part of academic medicine in the United States, and a description of the participation of minorities as faculty members would be incomplete without including them, but it is also of interest to describe the participation of minorities in schools other than these. Thus, tables are presented which exclude faculty in these schools, as well as tables which include them. Note that the new schools at Catholic University of Puerto Rico and Morehouse Medical College would also be in this special group, but their participation in the Faculty Roster had not yet begun in September of 1978, when these data were prepared.

A final variable of interest is citizenship status. It is a matter of debate whether a citizen of an Asian, African or Latin American country working in the United States should be considered a member of a minority group. Yet the numbers of Asians and Other Hispanics include substantial numbers of aliens, and the distributions are quite different for these groups when only U.S. citizens are tabulated. Thus, citizenship is also used as a control variable, and tables are presented separately for U.S. citizens only.*

---

*Prior to 1977, the Faculty Roster employed the following ethnic/racial classifications: Black American, American Indian, Mexican American, Puerto Rican, Other Spanish Surnamed, Oriental (Chinese or Japanese), Other Asian, Caucasian and Other. This was changed in 1977 to conform with the system of racial/ethnic classification promoted by the U.S. government: American Indian or Alaskan Native, Asian or Pacific Islander, Black - not of Hispanic origin, Mexican American or Chicano (Hispanic), Puerto Rican (Hispanic), Other Hispanic, and White, not of Hispanic origin. The previous Oriental (Chinese/Japanese) and Other Asian categories were merged into the new Asian or Pacific Islander category, while Black American was changed to Black, not of Hispanic origin. The Roster retained subcategories for Hispanic, however, because of the special concern for the U.S. minorities of Mexican Americans and Puerto Ricans. Others under the old system were classified as Unknown under the new system. Note that since the definitions of Mexican-American and Puerto Rican include U.S citizenship, there are no aliens in these categories.

Limitations of the Study

As the Faculty Roster System is maintained by continuous updating of faculty records, there is no point in time when the faculty data base is considered complete, and the accuracy of the system is limited by record submissions to AAMC from the schools. When personnel turnover at the schools occurs, there may be a delay in forwarding changes or in reporting new faculty members to AAMC. However, a survey of the accuracy and completeness of the FRS prepared in 1977 showed "for records representing active faculty, the overall accuracy rate (of FRS) is between 94 and 96 percent."**

Statistical Data

Statistical data for this report is presented in two parts. Summary tables, many including data for both 1975 and 1978, are presented with a brief commentary in the Discussion section. Detailed statistical tables for 1978 are presented in the Appendix. Tables in the body of the report are identified with Arabic numerals; tables in the Appendix are identified with Roman numerals. All of the tables in the Appendix delineate faculty by sex and ethnic/racial self-description. Appendix tables included are as follows:

Table I	All Faculty, All Schools
Table II	All Faculty, All Schools with the exception of Howard, Meharry and University of Puerto Rico***
Table III	All Faculty, All Schools with the exception of Howard, Meharry and University of Puerto Rico, U.S. Citizens Only
Table IV	All Schools, All Faculty, by Year of First Appointment
Table V	All Schools, All Faculty, by Department
Table VI	All Schools, All Faculty with the exception of Howard, Meharry and University of Puerto Rico, by Department
Table VII	All Schools, All Faculty with the exception of Howard, Meharry and University of Puerto Rico, U.S. Citizens Only, by Department

**Janet W. Bickel and Douglas J. McRae, Ph.D., AAMC, Estimates for Accuracy and Completeness of AAMC Faculty Roster Data, p. 17.

***Howard University and Meharry Medical College are referred to as Howard and Meharry throughout the report.

DISCUSSION

The following section contains thirteen tables, eleven of which compare data for the 1975-78 time period. Over this period of time, there has been a 16 percent overall increase in total faculty, from 40,578 in 1975 to 47,170 in 1978. The number of under-represented minorities has increased by 14 percent, from 1,096 in 1975 to 1,251 in 1978. The number of women faculty members has grown at virtually the same rate as total faculty. Women accounted for 15.1 percent of total faculty in 1975 and 15.2 percent in 1978.

The first table displays the percent distribution of all faculty by ethnic origin, sex and degree and Table 2 displays the same variables for all faculty with the exception of Howard, Meharry and University of Puerto Rico.

Tables 1a and 2a provide the percent of relative growth during this time period for all faculty at all schools and for faculty at all schools excluding Howard, Meharry and University of Puerto Rico. The female/male ratios for the three years are also shown.

Ethnic Distribution

Table 3 provides the 1975 and 1978 distribution of all ethnic categories for all schools, for all faculty.

Black Americans, American Indians, Mexican Americans and Puerto Ricans are defined in this report as under-represented minorities. This group comprised 2.7 percent of the total faculty in 1975 and in 1978. In 1978, Asians represent 6.0 percent; Other Hispanics 1.3 percent; Caucasians 82.0 percent; and an "Unknown" category represents 8.1 percent.

Table 4 provides the ethnic distribution within the underrepresented minority group only. The Black American category shows the lowest rate of growth, resulting in a decline in the proportion of underrepresented minorities that are Black.

In Appendix I, Table I displays all faculty, for all schools by ethnic description; and Table II displays the faculty at all schools with the exception of Howard, Meharry and the University of Puerto Rico, schools where underrepresented minority groups predominate. Absent from the Appendix are tables that display the faculty by ethnic description for these three schools alone. Table 5 shows the aggregate figures for those schools for 1975 and 1978.

Affirmative Action Programs

If the data in this report are utilized in the preparation of affirmative action plans, it is important to take proper account of the unique characteristics of Howard University, Meharry Medical College and the University of Puerto Rico. Because of special roles, Howard and Meharry have far greater numbers of black faculty members, and Puerto Rico has far greater numbers of Puerto Rican faculty members, than medical schools generally. It is not realistic to include these institutions in a norm for comparative purposes. They may, however, be considered in the available pool. Data, as indicated perviously, are presented both including and excluding these three schools.

Many of the recent requests for information on sex and ethnic distributions have been stimulated by requirements for the development of affirmative actions plans. These plans require the establishment of goals for participation, based on estimates of the available pool of qualified applicants for faculty appointments. Aggregate data on participation provide a perspective on goals which might be achieved, and of course present faculty are part of the available pool of presumably qualified applicants. Of course, no amount of intra-institutional recruitment of current faculty on the part of schools pursuing their affirmative action goals can change participation rates of women and minorities for medical education as a whole, even though individual schools may achieve their goals. Unfortunately, data on the available pool excluding current faculty are difficult to develop, and no assistance is provided in this report.

One may also wish to take citizenship into account in the preparation of affirmative action plans. It is not clear whether aliens are to be included or excluded for affirmative action purposes; therefore, tables have also been prepared which exclude the alien faculty. The total faculty count in 1978 is 47,221 members. Of this total, 6,894 members are alien. The increase of total faculty occurring since 1975 was 6,539 members, of which 1,649 members are alien, accounting for 25.2 percent of the increase (Table III).

Year of First Medical School Appointment

Table IV in the Appendix displays data for all faculty by year of their first medical school appointment beginning with 1951.

As a fraction of faculty appointment in each time period, the participation of women has shown a steady increase. Data for faculty active in 1975 and 1978 are shown in the following table.

In spite of the progressive increase in the fraction of newly appointed faculty who are women, it appears that women on the faculty in 1978 who received their appointments in these earlier years comprise relatively smaller parts of this cohort than they did two years prior. This suggests that women may be retiring or leaving academic careers more rapidly than men.

Table 6

Proportion of Women Receiving and
Still Holding Faculty Appointments, 1975-1978

Faculty active in	YEAR OF FIRST APPOINTMENT			
	1951-60	1961-65	1966-70	1971-75
1975	11.3	12.6	16.1	18.6
1978	11.0	12.4	15.0	17.6

The following table shows, for 1975 and 1978, the distribution, by sex, within each degree category, of faculty members receiving their first appointment during the 1971-1975 time period.

Table 7

Distribution by Sex, Within Degree Category,
First Medical School Appointment, 1971-1975

Degree	1975		1978	
	F	M	F	M
M.D./M.D.-Ph.D.	12.0	88.0	11.5	88.5
Ph.D./O.D.	18.3	81.7	19.5	80.5
Other	56.8	43.2	51.0	49.0

The Ph.D./O.D. category shows an increase of proportion of women in 1978; however, there are proportionately fewer women in the M.D./M.D.-Ph.D. and Other categories in the same year.

Faculty Distribution by Department

As noted in the following table (Table 8), the largest number of total faculty in the Basic Sciences is in the Department of Pathology; in the Clinical Sciences, the largest number is in Internal Medicine. The table shows the distribution of the faculty by ethnic group for the principal departments within the Basic Sciences and the Clinical Sciences.

Table 8

Distribution of Faculty By Ethnic Description and Basic & Clinical Departments

Table 9 provides the distribution of the faculty by department as a percent of all faculty. In the Basic Departments, Asian faculty have the highest representation in the Department of Pathology followed by the Department of Pharmacology. The largest proportion of Black faculty is in the Department of Anatomy, though the actual numbers are very small. In the Clinical Departments, Asian faculty are most strongly represented in the Department of Anesthesiology, followed by the Departments of Radiology and Obstetrics/Gynecology. Black faculty have the greatest representation in the Department of Public Health, followed by Family Practice, Psychiatry, and Obstetrics/Gynecology.

Female Distribution by Department and Ethnic Group

The following table illustrates the distribution of women by department for 1975 and 1978.

The percent distribution of women by departments has not changed very radically since 1975. There has been a slight increase in the proportion of women in the Department of Obstetrics/ Gynecology, from 13.4% in 1975 to 14.2% in 1978. Women continue to be represented in the smallest proportion in the Department of Surgery, showing a decline since 1975 from 3.9 percent to the present value of 3.5 percent.

U.S. Citizen/Alien Faculty Distribution

Appendix Table VII displays for all schools, with the exception of Howard, Meharry and University of Puerto Rico, all faculty, U.S. citizens, by department and degree category.

The final table (Table 11) is a summary of the number of faculty in primary departments, by ethnic description, who are U.S. citizens; and, for those who are alien faculty. The last column on the table gives the percent of alien faculty in each department category for all schools.

The highest percentage of alien faculty, in the aggregate, are in the following departments: Anesthesiology 29.7%, Orthopedic Surgery 19.8%; OB/Gyn 18.4%; Radiology 17.9%; Dermatology 16.8%; and Neurology 15.7%.

APPENDIX II

FACULTY ROSTER FORMS

AAMC FACULTY ROSTER

AAMC Form FR-1
Rev. 11/77

DATA RELEASE POLICY

Information maintained in the Faculty Roster System will be released only in accordance with the following policy: Items designated C, Confidential, will be released only to the individual faculty member and to an authorized representative of the school. Items designated R, Restricted, will be furnished to authorized individuals at member schools and others at the discretion of the AAMC President. Unrestricted, U, items are considered directory information. Aggregates of any class of data items may be published.

1. **DATE OF FORM COMPLETION:** (U) ___/___/___ (Month / Day / Year)

2. **MEDICAL SCHOOL REPORTING:** (U) _____

3. **OPTIONAL INFORMATION:** (C) [ ][ ][ ][ ][ ][ ][ ][ ][ ][ ][ ][ ][ ][ ][ ] (For school use only)

A. BACKGROUND INFORMATION

4. **NAME OF FACULTY MEMBER:** (U)

4a. LAST _____ (Indicate if Jr., III, etc.)

4b. FIRST _____

4c. MIDDLE _____

5. **SOCIAL SECURITY NUMBER:** (C) ___/___/___

6. **SEX** *(Check one)*: (R) 1 ___ Male 2 ___ Female

7. **ETHNIC/RACIAL SELF-IDENTIFICATION:** (R)

Check only one:

1 ___ American Indian or Alaskan native
2 ___ Asian or Pacific Islander
3 ___ Black, not of Hispanic origin
4 ___ Mexican American or Chicano (Hispanic)
5 ___ Puerto Rican (Hispanic)
6 ___ Other Hispanic
7 ___ White, not of Hispanic origin
0 ___ Do not wish to respond

8. **DATE OF BIRTH:** (R) ___/___/___ (Month / Day / Year)

9. **BIRTHPLACE** (Country): (R) _____

10. **CURRENT CITIZENSHIP** (Country): (U) _____

10a. **VISA STATUS OF NON-U.S. CITIZENS:** (R)

Check one:

1 ___ Temporary
2 ___ Permanent
0 ___ Not Applicable (U.S. Citizen)

B. CURRENT APPOINTMENT INFORMATION

11. **PRIMARY APPOINTMENT IN MEDICAL SCHOOL:** U

IF PRIMARY APPOINTMENT IS NOT IN MEDICAL SCHOOL, check here ☐ and go to Item 12 (i.e., the primary appointment may be in a School of Dentistry, Nursing, Pharmacy, etc.)

11a. **MEDICAL SCHOOL DEPARTMENT:**
(Or Administrative Unit Equal to or above Dept. level)

_____

11b. **CHAIRPERSON THIS UNIT?** *CHECK ONE:* ☐ Yes ☐ No

11c. **ACADEMIC RANK** (in Primary Department)

_____
(Enter exact wording of academic rank)

11d. **EQUIVALENT ACADEMIC RANK:**
(Indicate the closest equivalent rank to the rank entered in Item 11c.)

Check only one:

1 ___ Professor
2 ___ Associate Professor
3 ___ Assistant Professor
4 ___ Instructor
8 ___ Other
0 ___ None/Not Applicable

12. **JOINT APPOINTMENT MEDICAL SCHOOL DEPARTMENT:** (U)

IF NO JOINT APPOINTMENT is held in the medical school, check here ☐ and go to Item 13.

12a. **MEDICAL SCHOOL DEPARTMENT:**
(Or Administrative Unit Equal to or above Dept. level)

_____

12b. **CHAIRPERSON THIS UNIT?** *CHECK ONE:* ☐ Yes ☐ No

12c. **ACADEMIC RANK** (in Joint Department)

_____
(Enter exact wording of academic rank)

12d. **EQUIVALENT ACADEMIC RANK:**
(Indicate the closest equivalent rank to the one entered in Item 12c.)

Check only one:

1 ___ Professor
2 ___ Associate Professor
3 ___ Assistant Professor
4 ___ Instructor
8 ___ Other
0 ___ None/Not Applicable

13. **NATURE OF EMPLOYMENT:** (C)

Check only the one most applicable for medical school appointment

Salaried Appointment in the Medical School

1 ___ SFT: Strict full-time in the medical school
2 ___ GFT: Geographic full-time in the medical school
3 ___ PTS: Part-time salaried in the medical school

Salaried Appointment in an Affiliated Institution (including VA, teaching hospitals)

4 ___ SFTA: Strict full-time in an affiliated institution
5 ___ GFTA: Geographic full-time in an affiliated institution
6 ___ PTSA: Part-time salaried in an affiliated institution

} 13a. _____ (name of affiliated institution)

VOLUNTEER STATUS

7 ___ VOL: Voluntary (Not salaried by either the medical school or the affiliated institution)

(VOLUNTARY FACULTY MAY GO TO SECTION D: EDUCATION AND TRAINING)

14. BEGINNING MONTH AND YEAR OF CURRENT, CONTINUOUS EMPLOYMENT AS A SALARIED FACULTY MEMBER AT THIS SCHOOL OR ONE OF ITS AFFILIATED INSTITUTIONS: (C) ____/____ Month Year

15. TENURE STATUS: (C) *(Check one)*

1. ____ Tenured
2. ____ On Tenure Track (eligible for tenure)
3. ____ Not on Tenure Track
4. ____ Tenure Not Available at the Institution

16. MAJOR AREAS OF RESPONSIBILITY FOR THE MEDICAL SCHOOL: (C)

Indicate usual functional activities in any combination of Teaching/Instruction, Research, Patient Care, Administration, or Other Professional Activity. If a Primary responsibility for the medical school exists, enter "P" in the appropriate box. Check (X) other applicable areas only if they are performed at least 10% of the time for the medical school.

- ☐ Teaching/Instruction
- ☐ Research
- ☐ Patient Care (Patient Education)
- ☐ Administration
- ☐ Other Professional Activities

C. PROFESSIONAL EMPLOYMENT HISTORY (U)

17. YEAR OF FIRST SALARIED FACULTY APPOINTMENT AT A U.S. MEDICAL SCHOOL: (U) _____

(Includes appointments while salaried by an affiliated institution if a faculty appointment was held)

18. PROFESSIONAL EMPLOYMENT OR TRAINING ACTIVITY IMMEDIATELY PRIOR TO FIRST U.S. MEDICAL SCHOOL SALARIED ACADEMIC FACULTY EMPLOYMENT: (U)

CHECK ONLY ONE

PROFESSIONAL EMPLOYMENT

01. ____ U.S. Non-Medical Higher Education Institution
02. ____ U.S. Medical School - Volunteer Faculty
03. ____ U.S. Medical School - Non-Faculty Position
04. ____ U.S. Primary/Secondary Educational Institution
05. ____ Private Practice of Medicine
06. ____ U.S. Hospital (Non-Federal)
07. ____ State or Local Government (U.S.)
08. ____ U.S. Active Military Service
09. ____ U.S. Government - DOD & Military Hospitals
10. ____ U.S. Government - PHS (Include PHS Hospitals, NIH, & NIMH)
11. ____ U.S. Government - Veterans Administration (include V.A. Hospitals)
12. ____ U.S. Government - Other
13. ____ Private Business or Industry
14. ____ Foundation, Research Institute, Association (or other non-profit organization)
15. ____ Foreign Employment
16. ____ Other Employment

(Specify) _____

OR PROFESSIONAL TRAINING

20. ____ Internship/Residency
21. ____ NIH/NIMH Training Program
22. ____ U.S. Medical School
23. ____ Other U.S. Higher Education Institution
24. ____ Foreign Educational Institution
25. ____ Other Professional Training

(Specify) _____

19-24. PREVIOUS PROFESSIONAL EMPLOYMENT: (U)
